DID YOU KNOW...?

A daily dose of aspirin may help prevent heart attacks and strokes.

Read inside to see how you may be able to get your *aspirin* for a *copay of \$3 or less*, according to your health plan's drug formulary.

Did you know . . . ?

- People with heart disease or diabetes are at a greater risk of having a heart attack or stroke. Aspirin may reduce this risk.
- There are a few people with certain health conditions who should not take aspirin. Only your health care provider can decide if you should take a daily dose of aspirin.
- The American Heart and American Diabetes Associations recommend a daily dose of aspirin as a safe and effective way to help prevent heart attacks and strokes.
- Many health care providers recommend a daily dose of aspirin. Your health care provider can write a prescription for your daily dose of aspirin, for a copay of \$3 or less.

Visit your health care provider to see if a daily dose of aspirin is right for you. Ask:

- Given my health conditions and medicines, should I take a daily dose of aspirin?
- How much aspirin should I take every day?
- Does the benefit of taking aspirin outweigh the risk?

Remember to tell your health care provider about all of the medicines, vitamins, and herbal remedies that you are taking and if you have an allergy to aspirin.

Your health care provider can write a prescription for your daily dose of aspirin. Your copay will be \$3 or less if you are a Minnesota Senior Care Plus member.

If you have questions, call Member Services at **1-866-431-0801**; TTY users call **1-800-627-3529** or **711**. Calls to these numbers are free. Hours: Monday – Friday, 8 a.m. – 6 p.m.
