

The condition to pay under the direct access list is that the Nurse Practitioner (NP) or Physician Assistant (PA) must have rendered the service in a specialty clinic and must be affiliated with a specialty listed in this list of direct access specialists. These services will be allowed without an authorization only if the place of service is a specialty clinic. **Direct access without an authorization does not apply to NPs and PAs when the services are rendered at a primary care clinic.**

SNBC and Prime Health Complete Direct Access Specialists

PrimeWest Health has an exception to the Service Authorization requirement for out-of-plan physician specialists for members in Prime Health Complete (HMO SNP) and Special Needs BasicCare (SNBC)
