The information included in this list of covered drugs was correct as of 05/2026. To get the most current information, visit our website at www.primewest.org/programs. If you have questions, contact Member Services at the number listed on this page. You can ask for a printed copy of this Medical Assistance **List of Covered Drugs** at any time.

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN. Members must use PrimeWest Health network pharmacies to receive prescription drug benefits.

This list is subject to change and is not all-inclusive. The document is subject to State-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands, and mandatory generics whenever applicable. Note to existing members: This list of covered drugs has changed since last year and may change throughout the year. Please review this document to make sure the drugs you take are still on the list. Please contact Member Services at the number listed on this page with questions. You can also find updates to this list at www.primewest.org/programs.

If you have Medicare, you need to get most of your prescription drugs through the Medicare Prescription Drug Program (Medicare Part D). You must be enrolled in a Medicare prescription drug plan to get Medicare prescription drug benefits.

Minnesota Department of Human Services (DHS)

You have the right to file a complaint with DHS if you believe you have been discriminated against in our health care programs because of any of the following:

- race
- color
- national origin
- religion (in some cases)
- age
- disability (including physical or mental impairment)
- sex (including sex stereotypes and gender identity)

Complaints must be in writing and filed within 180 days of the date you discovered the alleged discrimination. The complaint must contain your name and address and describe the discrimination you are complaining about. We will review it and notify you in writing about whether we have authority to investigate. If we do, we will investigate the complaint.

DHS will notify you in writing of the investigation's outcome. You have the right to appeal if you disagree with the decision. To appeal, you must send a written request to have DHS review the investigation outcome. Be brief and state why you disagree with the decision. Include additional information you think is important.

If you file a complaint in this way, the people who work for the agency named in the complaint cannot retaliate against you. This means they cannot punish you in any way for filing a complaint. Filing a complaint in this way does not stop you from seeking out other legal or administrative actions.

American Indians can continue or begin to use tribal and Indian Health Services (IHS) clinics. We will not require prior approval or impose any conditions for you to get services at these clinics. For elders age 65 years and older this includes Elderly Waiver (EW) services accessed through the tribe. If a doctor or other provider in a tribal or IHS clinic refers you to a provider in our network, we will not require you to see your primary care provider prior to the referral.

IMPORTANT INFORMATION

What is a list of covered drugs?

A list of covered drugs includes the prescription drugs covered by PrimeWest Health. The drugs on the list are selected by PrimeWest Health with the help of a team of doctors and pharmacists. PrimeWest Health will generally cover the drugs listed in the list of covered drugs as long as the drug is medically necessary, the prescription is filled at a PrimeWest Health network pharmacy, and other requirements related to the drug are followed.

Most drugs and certain supplies are available up to a 34-day supply. Certain drugs you take on a regular basis for a chronic or long-term condition are available up to a 90-day supply and are identified on this **List of Covered Drugs** as 90DS.

Does the list of covered drugs ever change?

The PrimeWest Health list of covered drugs can change during the calendar year. If changes affect the coverage of a drug you are taking, PrimeWest Health will make reasonable efforts to contact you and your prescriber to tell you about the change. PrimeWest Health will also tell you about alternative drugs that are covered.

Examples of some changes that may occur are:

- A drug you are taking is no longer preferred (Refer to “What is a Preferred Drug List?” in the section following).
- A drug is removed from the list of covered drugs for safety reasons.
- Prior authorization requirements have changed (Refer to “Are there any restrictions on my coverage?”).

How are drugs listed in the list of covered drugs?

All drugs are listed by category using their generic names. Categories are listed alphabetically, and then drugs are listed alphabetically in each category.

What is a Preferred Drug List?

In Minnesota, all health plans are required to use the Minnesota Department of Human Services’ (DHS) Preferred Drug List (PDL). The PDL is created by DHS, in consultation with the Drug Formulary Committee, to let prescribers and members know about drugs or drug classes that are cost effective. Generally, drugs that are “preferred” are more cost effective and drugs that are “non-preferred” are less cost effective. Preferred drugs are available to members with fewer restrictions. Non-preferred drugs require a prior authorization. To get a non-preferred drug, your doctor or health care provider must get prior authorization. The PDL is included as part of PrimeWest Health’s list of covered drugs. PrimeWest Health’s complete list of covered drugs includes other drugs in addition to those on the PDL. The PDL is available on DHS’s website at

<https://minnesota.primetherapeutics.com/links>.

Families and Children, MinnesotaCare, MSC+, and SNBC: 2026 List of Covered Drugs

What are generic or biosimilar drugs?

A generic drug is approved by the Food and Drug Administration (FDA) and has the same active ingredients as the brand name drug. It produces the same clinical effect as the brand name drug.

A biosimilar drug is an FDA-approved biologic drug (most often an injectable prescription drug) that is highly similar to an already-approved biological product. It has no clinically meaningful differences in terms of safety and effectiveness.

Generic or biosimilar substitution means a generic version or biosimilar version of a drug is given instead of the brand name or non-biosimilar version of the drug.

PrimeWest Health will cover the brand name or non-biosimilar version of the drug only when:

1. Your prescriber informs PrimeWest Health in writing that the brand name or non-biosimilar version of the drug is medically necessary; OR
2. PrimeWest Health may prefer the dispensing of certain brand name versions over the generic or non-biosimilar version over the biosimilar version of the drug; OR
3. Minnesota law requires the dispensing of the brand name or non-biosimilar version of the drug.

Within the list of covered drugs, brand name drugs are capitalized (e.g., DRIZALMA) and generic drugs are in lower-case italics (e.g., *lisinopril*).

What are over-the-counter drugs?

Drugs and products that are available for purchase without a prescription are referred to as over-the-counter (OTC). Although an OTC product is available without a prescription, if a doctor writes a prescription for an OTC product, PrimeWest Health may cover it. Within the list of covered drugs, OTC drugs and products are marked with OTC in the Notes column.

What are specialty drugs?

Specialty drugs are used by people with complex or chronic diseases. These drugs often require special handling, dispensing, or monitoring by a specially trained pharmacist.

If you are prescribed a drug that is on the PrimeWest Health Specialty Drug List, your prescriber will need to send the prescription to one of PrimeWest Health's specialty pharmacies.

The most current list of specialty pharmacies, including contact information and hours of operation, is available in the **Specialty Pharmacies section of the *Provider & Pharmacy Directory*** at www.primewest.org/programs, which is updated monthly. If you need help finding this section of the directory, or if you would like a paper copy mailed to you, please call Member Services.

You will also need to call the specialty pharmacy where your prescription is sent to set up an account. You will need to have your PrimeWest Health member identification card when you call the specialty pharmacy.

Families and Children, MinnesotaCare, MSC+, and SNBC: 2026 List of Covered Drugs

What if a drug is not on the list of covered drugs?

Not all drugs are covered. If a drug you want to take is not listed in the list of covered drugs, you can call Member Services at **1-866-431-0801** or TTY **1-800-627-3529** or **711** (the call is free) and ask if the drug is covered. If not, it is considered a “non-formulary” drug. If you need a drug that is not included in the list of covered drugs, and is not excluded by Federal and State laws, we will cover it if your qualified health care provider shows us that: 1) the drug that is normally covered has caused a harmful reaction to you; 2) there is a reason to believe the drug that is normally covered would cause a harmful reaction; or 3) the drug prescribed by your qualified health care provider is more effective for you than the drug that is normally covered. The drug must be in a class of drugs that is covered.

If PrimeWest Health does not cover your drug, you can do one of these things:

- You can ask your health care provider if there is another covered drug that will work for you.
- You and/or your health care provider can ask PrimeWest Health to make an “exception” and cover the drug for you. If your exception request is approved, the drug will be covered at the appropriate generic or brand name copay.

Your health care provider can request a non-formulary drug by contacting PrimeWest Health’s Pharmacy Benefit Manager at **1-877-391-9298**, 7 days a week, 24 hours a day; TTY users call **1-800-627-3529** or **711**. The call is free. Or, they can submit a formulary exception request form. The form is available on our website at www.primewest.org. If you were receiving the prescribed non-formulary drug upon enrollment with us, up to a 34-day supply will be covered during the review process. You and your health care provider will be notified of the decision.

We will cover an antipsychotic drug, even if it is not on our drug list, if your provider certifies this is best for you. There is no copay for antipsychotic drugs. In certain cases, we will also cover other drugs used to treat a mental illness or emotional disturbance even if the drug is not on our approved drug list. We will do this for up to one year if your provider certifies the drug is best for you and you have been treated with the drug for 90 days before: 1) we removed the drug from our drug list; or 2) you enrolled in the plan.

If pharmacy staff tells you a drug is not covered and asks you to pay, ask them to call your qualified health care provider. We cannot pay you back if you pay for it. There may be another drug that will work that is covered. If the pharmacy won’t call your qualified health care provider, you can. You can also call Member Services at **1-866-431-0801** for help. TTY users call **1-800-627-3529** or **711**. The call is free.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include the following:

- **Prior authorization:** PrimeWest Health requires you or your health care provider to get prior authorization for certain drugs. This means that you will need to get approval from PrimeWest Health before you fill your prescription. If you don’t get approval, PrimeWest Health may not cover the drug.

Families and Children, MinnesotaCare, MSC+, and SNBC: 2026 List of Covered Drugs

- **Quantity limits:** For certain drugs, PrimeWest Health limits the amount of the drug that we will cover.
- **Age requirements:** Some drugs have age requirements. A prior authorization may be needed depending on your age and the specific drug prescribed.

You can find out if your drug requires prior authorization, has quantity limits, or has an age requirement by looking in this list of covered drugs. An exception to a drug restriction or limit can be made if your doctor submits a statement or documentation supporting the request. Refer to *Prescription Drugs* in Section 7: Covered Services of your **Member Handbook** for more information. You can also get more information about the restrictions applied to specific covered drugs by calling Member Services at **1-866-431-0801** or TTY **1-800-627-3529** or **711** (the call is free) or by visiting our website at www.primewest.org/programs. Also refer to “Can I ask for an exception to the coverage restrictions?”

Excluded drugs: Some drugs are excluded from the list of covered drugs. This means they are not covered. Excluded drugs include the following:

- Drugs used to treat sexual or erectile dysfunction
- Drugs used to enhance fertility
- Drugs used for cosmetic purposes, including drugs to treat hair loss
- Drugs excluded from coverage by Federal or State law
- Experimental drugs, investigational drugs, or drugs not approved or authorized by the Food and Drug Administration (FDA)
- Medical cannabis

Can I ask for an exception to the coverage restrictions?

Yes. You or your health care provider can get the **Formulary Exception Form** from www.primewest.org/programs or by calling Member Services at **1-866-431-0801** or TTY **1-800-627-3529** or **711**. The call is free. Your provider must return this form to the fax number or address listed on the document. To allow for a thorough review and to ensure that you or your health care provider gets a response within 24 hours, all information requested in the form should be provided, including documentation of which medications have been tried and failed, including the dosages used and the reason for failure (for example, side effects).

What will a prescription cost?

Medical Assistance-covered drugs no longer have copays. You do not have cost sharing for drugs covered by Medical Assistance. MinnesotaCare members may have copays. All copay information for prescriptions is listed in the **Member Handbook** in Section 6: Cost Sharing. If you have additional questions, call Member Services at **1-866-431-0801** or TTY **1-800-627-3529** or **711** (the call is free) or visit our website at www.primewest.org/programs.
