It's important to visit your provider after childbirth. Your provider will check how you and your baby are doing. They will talk with you about infant care and screen you for postpartum depression (PPD). PPD is common following birth. It can be serious, but treatment is available.

Because postpartum visits are so important, PrimeWest Health is giving a **\$50 gift card** to members who are eligible and who have a postpartum visit in 2026. To be eligible, on the date of service, you must be a Families and Children, MinnesotaCare, or Special Needs BasicCare (SNBC) Medical Assistance-only member and PrimeWest Health must be your primary insurer. The visit must take place on or between 7 and 84 days after delivery.
